

Objective

To foster innovation and collaboration within a high-tech industry in order to create value for a company and radically improve the lives of customers. Enhance the communication and align the objectives of both the business and technical teams, in order to be a catalyst for success and a valuable contribution to any company.

Qualifications

Driven and active leader with a strong sense personal responsibility and ownership of societal problems. Successful at organizing small and large teams of diverse people in order to achieve common goals through leading by example, challenging the norm, and lowering barriers to success. Adept at learning quickly and adding value through empathy, humility, and grit. Technically advanced in software with a vision for business and opportunity.

Education

California Polytechnic State University, San Luis Obispo

Pursuing a BS In Business Administration with a concentration in Information Systems and a minor in Computer Science — expected graduation, June 2015.
GPA: 3.672

Experience

Innovation Labs Intern Developer; Aptify; New Orleans, LA — Jan - Sept 2014

- Design and build a new form of dynamic security authorization, relative to the previously static methods, by collaborating with various disciplines and aggregating the ideas of many teammates.
- Architect a front-end framework to integrate server-side data with third-party websites by providing a means of delivering web-content entirely through meta-data.

Executive Leadership Assistant and Sherpa; Cal Poly — Mar 2013 - June 2014

- Create environments that foster positive person growth and support character building, as apposed to the traditional academic model, by challenging students to succeed and strive for excellence.

President of Cal Poly Entrepreneurs — Jan 2013 - Jan 2014

- Develop and implement approaches to spread entrepreneurship, drive innovation, and motivate members to take responsibility of their own future.
- Build a framework of communication and procedures to optimize efficiency, maximize potential, and enable sustainable growth.

Freelance Developer; The Bay Six — Mar 2013 - Dec 2013

- Develop innovative solutions to technical challenges by creating backend analytic dashboards, customer metrics, and mobile APIs.
